Vermont Monthly Beef Report

Producer Comments & Trends

Reported volume of beef trade continues to be light. Only slight changes to the retail price monthly report due to limited volume and number of transactions. YTD rolling averages were omitted due to low response over winter months. 3 month rolling reports average of October and December only due to no carcass sales reported in November. Producers have noted that direct to consumer sales remain increased due to impacts of COVID-19. Limited availability for butcher dates is affecting sales.
