### **Lunch Meat Clarification**

Information below is for clarification purposes for interested parties in determining product eligibility for the Farmers to Families Food Box.

Combination boxes may only contain up to 1 pound of lunch meat. For the purposes of this purchase, the definition of lunch meat is used as a broad category to include items such as, but not limited to: deli meats, bologna, hot dogs, bratwurst, luncheon meats, loaves, sliced meats, scrapple, or any other processed meat products that are highly comminuted or emulsified, etc. As stated in Amendment 1 of the solicitation, the meat must comprise at least 75% of the raw formula. This clarification broadens the Question and Answer number 11 and 1.1.1 (d)(3)(i) from Amendment 1 of the Solicitation.

### **Seafood Addition**

Pre-cooked seafood products are now eligible for food box inclusion and can be aggregated with pre-cooked meat (beef, pork, chicken and turkey) products and egg or egg products to meet the existing material description weight requirements.

Section 1.1.1 (d)(3)(i)- Meat and Egg or Egg Products (meat must be pre-cooked) content is updated as follows:

Pre-cooked seafood products shall be manufactured in a United States Department of Commerce (USDC) approved establishment or under FSIS oversight, as applicable and be further processed or in its native form. Seafood must comprise at least 75 percent of the raw formula. This addition revises Question and Answer number 14 and 42 from Amendment 1 of the solicitation.

### **Labeling Clarification**

As food boxes are distributed directly to recipients, all individual pre-cooked meat products, pre-cooked seafood products, and egg or egg products placed into the combination boxes must be household sized and fully labeled as stated on pages 9 and 10 of the solicitation (see below). Application of the immediate container label shall occur under regulatory oversight. Placing unlabeled immediate containers or adding unaffixed labels into the combination box is not acceptable.

(b) PRIMARY PACKAGING (Immediate Container):

(1) FDA/USDA defines minimum label information on primary packaging:

- (i) Company name
- (ii) Company/Plant location or FSIS establishment number.
- (iii) Food item
- (iv) Ingredient list
- (v) Allergen statement, as applicable
- (vi) Nutrition Facts Panel
- (vii) Traceability code (see below)
- (viii) Cooking/heating/handling instructions, as applicable

(2) Traceable Product Codes. Labeling and packaging must meet all applicable FDA and USDA requirements and contain a code which allows traceability of the product in the event of a recall.
