Methodology: Advanced Class Price Report

[The Mandatory Price Reporting Act of 2010](#) was passed on September 27, 2010. The act requires USDA to release dairy product sales information on or before Wednesday at 3:00 pm EST (unless affected by a Federal Holiday).

For milk associated with Federal Milk Marketing orders, product-price formulas are used to set minimum prices as reported in the [Announcement of Advanced Prices and Pricing Factors](#) publication each month. Weighted-average product prices used for these formulas are computed from prices and volumes reported for the most recent two-week period in the [National Dairy Products Sales Report](#).

Class I Prices for each order are calculated by adding the appropriate class I differential (determined by each order's physical county base location) to the monthly Base Class I Price. Each order's base location and class I differentials are as follows: Northeast Order 001 (Boston, MA) \$3.25; Appalachian Order 005 (Charlotte, NC) \$3.40; Florida Order 006 (Tampa, FL) \$5.40; Southeast Order 007 (Atlanta, GA) \$3.80; Upper Midwest Order 030 (Chicago, IL) \$1.80; Central Order 032 (Kansas City, KS) \$2.00; Mideast Order 033 (Cleveland, OH) \$2.00; California Order 051 (Los Angeles, CA) \$2.10; Pacific Northwest Order 124 (Seattle, WA) \$1.90; Southwest Order 126 (Dallas, TX) \$3.00; Arizona Order 131 (Phoenix, AZ) \$2.35.

The Advanced Prices and Pricing Factors are released generally at 3:00 P.M. EST, no later than the 23rd of the following month. If the release date does not fall on the 23rd, the most current release preceding the 23rd will be used in the price calculation. Once monthly average prices have been computed, they are not revised. For more information on product price formulas and a schedule of release dates, please visit the [Dairy Mandatory Market Reporting page](#).

Reliability: National Dairy Products Sales Reports are subject to revision for four weeks following the initial weekly report. For enforcement purposes, the information in the National Dairy Products Sales Report is subject to verification for up to two years from the time of submission. The AMS audit staff periodically reviews a company's sales records to ensure accurate reports during onsite verifications. The monthly Announcements of Advanced Prices and Pricing Factors are not subject to revision.
